

Individual Support Grant

You can apply for:

- (basic) equipment
- Travel expenses (e.g. conference attendance fee)
- Seminar costs (e.g. DHV seminars)
- Child emergency care within KIT

Please note:

- The individual support grant was created to compensate for structural disadvantages. It is meant as a last resort and a critical individual review of each application is made by the financial committee or the YIN speakers.
- You can apply for the fund if you need financial support and cannot use the financial means of the institute or your project.
- Clear reasons must be provided why you cannot use the financial means of the institute or project.
- The “individual support grant” can be offered as long as the means of the financial year are available.

The limit is 2.000 € for each YIN member.
